

5.6 NO-ACTION ALTERNATIVE

The 2010 ROD deferred selection of a specific site for an LFTRC on Guam. Consequently, under the No-Action Alternative for this SEIS, no LFTRC would be developed. The existing conditions would be unchanged and there would be no impacts to any of the resource areas under the No-Action Alternative in Chapter 5.

5.7 SUMMARY OF IMPACTS AND POTENTIAL MITIGATION MEASURES FOR THE LIVE-FIRE TRAINING RANGE COMPLEX ALTERNATIVES

Table 5.7-1 summarizes the impacts and potential mitigation measures for each LFTRC alternative evaluated in this chapter. Impacts include both construction and operation impacts. As discussed in Section 5.6, under the No-Action Alternative, the LFTRC would not be constructed and there would be no impacts to any of the resource areas discussed in this SEIS associated with the LFTRC. Thus, the No-Action Alternative is not presented in Table 5.7-1.
